

Follow these steps to set up a **recycling** program at your business:

1

Look at your business' waste stream for recyclable material. The most common materials are paper, cardboard, cans, and bottles, but don't overlook packaging material, and office equipment.

2

Contact Mid Valley Disposal to find out which recycling option best suits your business. Our containers range from 96 gallon carts to 6 cubic yard containers.

3

Appoint maintenance staff to help in the locking and unlocking of bins. If further assistance is needed, Mid Valley Disposal can assist with educational material or presentations to for employees.

Steps to Maintain a Successful Recycling Program

1. Place containers in convenient locations.
2. Put posters around office for all employees to see regarding what is recyclable.
3. Please have all containers out by 5:30 am on your service day to avoid a missed pick-up.

Why Recycle?

Environmental Responsibility
Build a Stronger Community

Recycling is the easiest way to "Go Green" and reduces the amount of trash entering the waste stream. By recycling as much as you can, you are saving natural resources and preventing air and water pollution. Not only does recycling provide environmental benefits, but it is also cost effective and will help keep costs down. Recycling is also the law. The State of California has recently amended Assembly Bill 341, which aims for a 75% diversion by the year 2020, while also making it mandatory for all commercial businesses that produce 4 or more cubic units of trash per week and multi-family complexes with 5 units or more to recycle.

Hazardous Waste Disposal

Hazardous waste is material that cannot be placed in the recycling or garbage cart. These materials should be disposed of safely and properly.

These materials include:

- Anti-freeze
- Automotive products
- Used motor oil
- Batteries
- Needles
- Fluorescent bulbs/tubes
- Paint, oil/latex
- Pesticides & herbicides
- Prescription drugs

Contact the Fresno County Public Works & Planning Department to find out more information regarding the next Household Hazardous Waste Drop-off Event at 559.600.4259.

If you have a small clean-up projects or just have some extra garbage laying around the house that you need to dispose of, Mid Valley Disposal's 3-yard Rent-a-Bin containers are perfect for the job! Rent-a-Bin containers can be kept for as long as needed and may be dumped as many times as necessary until your job is done. These Rent-a-Bins are temporary containers that you can fill with any kind of material, only excluding: concrete, dirt, televisions, computers, tires, hazardous waste, and roofing material. Give us a call to inquire about starting new temporary services with us today!
